Summary

Full Stack Developer with 3 deployed projects built on the MERN stack, including an AI-powered interview platform using the Google Gemini API and a real-time collaborative code editor using Socket.io. Hands-on experience with JWT and Google OAuth authentication, REST API design, role-based access control, and Docker-based deployment. Currently pursuing B.Tech in Computer Science and seeking a Full Stack Developer Internship.

Experience

YuvaIntern 2026

Junior Software Developer Intern — YuvaIntern

- Completed an internship as a Junior Software Developer Intern, working on web development tasks with a team.

Technical Skills

⇨ **Languages : C, C++, Python, JavaScript, TypeScript**

⇨ **Frontend : React.js, HTML5, CSS3, Tailwind CSS, GSAP, Framer Motion, Monaco Editor**

⇨ **Backend : Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture**

⇨ **Database : MongoDB, MySQL**

⇨ **AI & APIs : Google Gemini API, Web Speech API, Google OAuth**

⇨ **Tools : Git, GitHub, Docker, Postman, VS Code**

Projects

AI RESUME INTERVIEW

Tech Stack : React.js · Node.js · Express.js · MongoDB · JWT · Tailwind CSS · Google Gemini API · Docker · Google OAuth · PDF Parsing

- Engineered an AI-powered interview preparation platform where users upload a resume and job description and get personalized interview questions and analysis using the Google Gemini API
- Implemented JWT and Google OAuth authentication, with PDF parsing (Multer) to extract resume content for report generation
- Containerized the app with Docker Compose for consistent deployment across environments

Live Link

Real-time Collaborative Editor

Tech Stack : React.js · Node.js · Express.js · Socket.io · Monaco Editor · Docker

- Developed a real-time collaborative code editor enabling multiple developers to work on the same file simultaneously in shared rooms, with live change propagation over Socket.io (WebSockets)
- Integrated Monaco Editor to provide multi-language syntax highlighting and a familiar VS Code-like editing experience inside the browser
- Containerized the application with Docker for consistent setup and deployment across environments

Live Link

School Management System (ManuOS) - Full Stack MERN

Tech Stack : React.js · Node.js · Express.js · MongoDB · JWT · Tailwind CSS

- Built a full-stack MERN school management system with JWT authentication and role-based access control for Admin, Teacher and Student roles
- Developed 21+ RESTful API endpoints with authentication and authorization middleware
- Secured the backend with Helmet, CORS, rate limiting and bcrypt password hashing.

Education

Dr. Abdul Kalam Technical University Lucknow B Tech

B Tech in Computer Science 2024 – Present

Kituka Devi Inter College Bareilly 12th

Higher secondary [PCM] 2022 – 2024

KR Dhakan Lal Inter College Bareilly 10th

High School (10th Standard) 2021 – 2022

Achievements & Activities

- 300+ DSA problems solved
- Google-indexed portfolio (ranking #1)
- Mr. Fresher Award (ANA College, 09/2024)
