

Prince Yaduvanshi

Full Stack Developer (MERN) | Python Automation | AI Integration | Backend Developer

✉ princeyaduvanshi226@gmail.com ☎ 8057160928 📍 Noida, UP , India 🌐 <https://hprince80.github.io/Portfolio/#home>
📄 <https://www.linkedin.com/in/prince-yaduvanshi-a99b71354/> 🐙 <https://github.com/HPRINCE80>

Summary

Full Stack Developer skilled in the MERN stack, RESTful API design, and AI integration, with hands-on experience building and deploying production-ready applications including an AI-powered interview preparation platform with Google OAuth and an AI code review tool using Google Gemini 2.5 Flash API. Comfortable across the full project lifecycle from backend API architecture to responsive frontend UI. Strong problem-solving foundation with 250+ DSA problems solved from Striver's SDE Sheet. Currently pursuing B.Tech in Computer Science (2024-2028) and seeking an internship to contribute to real-world engineering challenges.

Projects

AI RESUME INTERVIEW

Tech: React.js · Node.js · Express.js · MongoDB · JWT · Tailwind CSS · Google Gemini API · Docker · Google OAuth · PDF Parsing

- Built a full-stack AI-powered interview preparation platform where users upload their resume and job description to receive AI generated interview analysis using Google Gemini API
- Implemented secure authentication with JWT, cookie-based sessions, and Google OAuth for seamless user login.
- Integrated PDF parsing with Multer to extract resume content and generate personalized interview reports.
- Containerized the entire application using Docker Compose for consistent development and deployment environments.

AI Code Review

Tech: React · Monaco Editor · Node.js · Express.js · Google Gemini 2.5 Flash

- Engineered a full-stack AI-powered code review platform with a resizable split-panel interface using React and Monaco Editor (VS Code engine), delivering a professional IDE-like experience.
- Integrated Google Gemini 2.5 Flash API with a custom system prompt simulating a Senior Code Reviewer, providing structured feedback on code quality, security, best practices, and performance.
- Architected backend using Node.js + Express.js following strict MVC pattern (routes -> controllers -> services), ensuring clean separation of concerns and scalability.
- Rendered AI responses in rich Markdown (headings, code blocks, bullet lists) using react-markdown + rehype-highlight for formatted, readable feedback.

Real-time Collaborative Editor

Tech Stack: React.js · Node.js · Express.js · Socket.io · Docker

- Built a real-time collaborative code editor enabling multiple users to write and edit code simultaneously, with changes reflected instantly across all connected clients.
- Implemented WebSocket-based live synchronization using Socket.io for low-latency, bi-directional communication between users.
- Containerized the full application using Docker for consistent development and deployment environments.

Education

Dr. Abdul Kalam Technical University Lucknow
Computer Science

B Tech
2024-2028

Skills

- 🔖 Languages : C, C++, Python, JavaScript (ES6+),TypeScript
- 🔖 Frontend : React.js, HTML5, CSS3, Tailwind CSS, GSAP, Framer Motion, Monaco Editor
- 🔖 Backend : Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture
- 🔖 Database : MongoDB, MySQL
- 🔖 AI & APIs : Google Gemini API, Web Speech API, Google OAuth
- 🔖 Tools : Git, GitHub, Docker, Postman, VS Code

Certifications

- Tata - GenAI Powered Data Analytics Job Simulation08/2026
Forage
- LinkedIn Content and Creative Design Certification
LinkedIn

Awards

- Won Mr. Fresher Award at ANA College of Engineering and Management — recognized for outstanding personality and communication skills among all first-year students (2024)
09/2024

Languages

- Hindi
- English

Interests

- 🔖 Web Development
- 🔖 Open Source
- 🔖 Automation Tools
- 🔖 AI Integration
- 🔖 UI/UX Design

Achievements & Activities

- Active GitHub contributor with 10+ repositories showcasing personal and academic projects.
- Solved 250+ DSA problems from Striver's SDE Sheet, covering arrays, strings, dynamic programming, trees, and graphs.
